A Seminar Addressing the Transportation Needs of the NICU Patient

August 28-29, 2009
Fort Worth Omni Hotel

Pre-conference to the **KIDZ IN MOTION**
National Child Passenger Safety Conference

Description:

This seminar will look at the challenges healthcare systems face in discharging premature infants. Current technological advances find discharge weights decreasing and leave healthcare providers with multiple challenges in trying to safely and securely transport this increasing population of newborns.

Topics:

- Updates to American Academy of Pediatrics clinical guidelines: Safe Transport of Preterm and Low Birth Weight Infants at Hospital Discharge
- New curricula for training NICU and birthing hospital staff in child passenger safety for discharge
- Angle tolerance testing demonstrations
- Preemie and Low Birth Weight discharge from the HMO perspective
- Forging alliances with your physicians
- Specialized "meet the manufacturer" opportunity highlighting current child restraints that safely meet the needs of the premature infant, with hands-on time
- Retail stores: decisions and factors that determine which newborn safety restraints end up on store shelves
- AAP Hospital CPS discharge policy study

Registration:

\$225 discounts apply if also registering for the KIDZ IN MOTION National Child Passenger Safety Conference
To register, visit www.kidzinmotion.org

Registration Deadline:

August 1, 2009

higher rates apply for registrations received after August 1

**Attendance is limited:
register early!**
