2012 National

Child Passenger Safety Conference

# Remembering Child Passenger Safety Heroes

## Cheryl Neverman

*Some people really make a difference in other people's lives - and by doing so they make a difference in the world. They do the right things because they need to be done, not because they are asked to or because they expect personal gain.*

*Such people rarely receive the credit, compensation, or thanks they deserve. They and their ideas are instead often rejected, but these few know that they are making the right choices and that they can make a difference. They take joy in what they create and share.*

*Cheryl Neverman was one of those beautiful heroes.*

*- Joseph M. Colella, Traffic Safety Projects*

Cheryl Neverman, a truly creative, passionate leader for child passenger safety, passed away in July after a valiant struggle against cancer. Those of you who became involved in CPS in the past 10 years or so may never have heard of her and her momentous work for CPS. For those of us who were active in the 80's and 90's, she was a friend, mentor and inspiration.

She began, as did many of the early CPS Advocates, in her young children's school parent-teacher association during the late 1970's. She received one of the first PTA grants from NHTSA and General Motors for CPS promotion. Cheryl graduated to the state level, managing the CPS program for the Iowa Highway Safety Bureau and then moved on to New York City to be director of safety education in the Department of Transportation. From there, she went to NHTSA to work in the Office of Occupant Protection in 1990, where she remained until her retirement this past winter.

For me and many others, the highpoint of the first half of Cheryl's 22 years at NHTSA was her championing of the first Standardized Child Passenger Safety Certification Program, which became a reality in her capable hands. She also was influential as a liaison to the Committee on Injury, Violence, and Poison Prevention of the American Academy of Pediatrics. In later years, she worked on youth traffic safety at NHTSA, fostering the National Organization for Youth Safety (NOYS), and helped lead the federal Inter-Agency Coordinating Committee on Prevention Underage Drinking.

I knew Cheryl for over 30 years and was always amazed by her seemingly endless energy, creativity, and commitment to children and teens. Her enthusiasm was infectious, and she could communicate effectively with everyone from physicians to parents, from federal bureaucrats to used car dealers. In addition, she was a committed friend to many and parent to three fine children. I and many of us in the CPS field will greatly miss her.

*- Deborah Davis Stewart, Safe Ride News Publications*

## Lt. Joel Bolton Lake Charles, LA

From KPLC TV, Lake Charles LA

By John Bridges

May 16, 2012

When Joel Bolton was only 12 years old, his niece, Ginger, was killed in an automobile accident. There were no child safety seats back then and seat belts were rarely used. The incident so affected Bolton that he decided to become a police officer.

"That bothered Joel and when he went into law enforcement, it was for passenger safety and car seats and things like that," said Sandy Bolton, his widow. "Joel was the number 3 person in the country to be certified in child seat inspections and installations. Now there are over 300,000."

After 25 years with the Lake Charles Police Department, Bolton moved to Washington, DC to work for the Department of Transportation...writing national programs on child seat and passenger safety.

"He was successful in law enforcement and passenger safety because he had a pure passion for Ginger and her death. That's how he would want to be remembered. That would be his legacy."

Bolton died of a heart attack in March of 2012, leaving behind his wife and a 4 year old daughter, Jolie.

## 2012 Sponsors

# TOYOTA

## DIONO™

# Britax

We gratefully recognize the members of the

### **Manufacturers Alliance for Child Passenger Safety**

who provided scholarships for CPS Technician continuing education:

- ♦ Britax
- ♦ BubbleBum
- ♦ Chicco
- ♦ Clek
- ♦ Combi
- ♦ Diono
- ♦ Dorel Juvenile Group
- ♦ Evenflo
- ♦ Graco
- ♦ IMMI
- ♦ Orbit Baby
- ♦ Recaro
- ♦ Safe Traffic Systems
- ♦ Summer Infant
- ♦ Volkswagen

### **Continuing Education Units**

Documentation and verification of attendance at Child Passenger Safety Technician CEU sessions is your responsibility. You will find a CEU Proof of Attendance sheet on the back cover of this program. To receive credit for a CPS CEU session, please arrive at the session within 5 minutes of the session start and remain in the room until the end of the session. At the end of each session, have your attendance sheet stamped as you exit. Keep your Proof of Attendance sheet in a safe place!

= Safe Kids approved CEU

# Welcome!

Thank you for your ongoing commitment to Child Passenger Safety. We are honored to have each and every one of you with us and we look forward to hearing from you throughout the conference with suggestions on how we can improve the KIDZ IN MOTION National Child Passenger Safety Conference. The planning committee works hard to create a high-quality conference that meets the educational needs of our field and industry. We hope we have provided you with ample opportunity to meet your educational and networking needs and fostered your abilities to enhance your child passenger safety efforts when you return home. Feel free to share your thoughts and suggestions with any of the planning committee members.

Please invite your colleagues to join us next year in Albuquerque August 27-29.  
Thank you again for attending, and enjoy the conference.

Sincerely,  
The Conference Planning Committee

## Session 1

### Recent Research in Child Passenger Safety at UMTRI

**Kathy Klinich**

*University of Michigan Transportation Research Institute*

*Moderators: Barbara Birkenshaw, Sue Littnan*

From UMTRI, a leader in transportation safety research, learn about FMVSS booster testing as well as scanning kids to develop more realistic computer models and crash test dummies for children of different sizes.

### A Faith-based Approach to Improving Motor Vehicle Safety in Minority Communities

**Fernando X.Rico-Alarcon**

*Cincinnati Children's Hospital Medical Ctr.*

*Moderator: Shirley Varela*

An overview of the Buckle Up for Life program, which educates minority communities on motor vehicle safety through partnerships with faith-based organizations.

### Seeking Inspiration? Evaluate!

**Amy Teddy**

*C.S. Mott Children's Hospital*

*Moderator: Katie Mueller*

Wonder if you are being effective in your CPS efforts? Feel paralyzed with what to do next? Evaluation can inspire you to create positive growth and provide validity to your efforts.

### Understanding FMVSS Child Restraint Labeling and Printed Instructions

**Sarah Tilton**

*Britax Child Safety*

*Moderators: Jeff Durkee, Eric Bejarano*

A review of the mandatory requirements of FMVSS 213 for CRS labeling and how ease of use ratings and organization recommendations can sometimes cause struggles for the manufacturer.

### Special Needs Need Special Care!

**Kellie O'Riordan**

*Goodwill Easter Seals Miami Valley, OH*

*Moderator: Mary Ann Crosley*

Assemble your dream team of care for families with special needs. A sports-themed presentation for a fun approach to often-challenging family interactions.

### Charging for Car Seats a Success: A CPS Program to Prove It

**Nicole Vesely**

*Safe Kids Madison Area, WI*

*Moderator: Jim Savage*

A program providing car seats to low-income families can be more successful in reaching more families with a true financial need by implementing a partial fee requirement for seats provided. Learn how.

## Session 2

## Session 3

### Using a Spokes-Character as a Child Passenger Safety Education Tool

**Amanda Brown and Julie Brewer**  
*Tennessee Tech University*  
 Moderators: Pamela Fair

Learn how Ollie Otter effectively educates elementary school-aged children on the use of booster seats and seat belts.

### Fostering Interdepartmental Collaboration for CPS Program Success

**Kelly Klasek and Abbey Iffrig**  
*St. Louis Children's Hospital*  
 Moderator: Jen Shea

Lead a collaborative effort within your organization to serve more families. A discussion of limitations, challenges, effective strategies and lessons learned from a successful hospital-based program.

### Working with Local Pupil Transportation: A Case Study

**Emilie Crown and Emily Alexander**  
*Montgomery County Fire and Rescue*  
 Moderators: Denise Donaldson, Jamie Revesz

Motivate your CPS technicians to help local school districts assure safe student transportation.

### Real World Pediatric Crash Injuries: Lessons Learned

#### Dr. Stewart Wang, MD, PhD, FACS

*International Center for Automotive Medicine and University of Michigan Trauma Center*  
 Moderator: Tammy Franks

*Dr. Wang will present a look at real world crash injury cases involving children, focusing on restraint use vs. misuse, occupant kinematics and resulting injuries. He'll discuss biomechanical factors contributing to the causation of injuries, as well as potential future strategies for enhancing the protection of pediatric occupants.*

*Dr. Wang is Professor of Surgery and attending trauma surgeon at the University of Michigan Trauma Center. He is the founding director of the International Center for Automotive Medicine and director of the multidisciplinary Program for Injury Research and Education. Since 2006, Dr. Wang has directed a FHWA/Michigan DOT-funded program to improve crash scene emergency care by training EMS and medical personnel to better predict crash injuries using advanced automatic collision notification data.*

## Keynote

Session 4	<b>Child Passenger Safety Regulations and the School Bus</b>	<b>Pilot CPS Fitting Station: Successful, Sustainable Community Partnerships</b>	<b>Building an Interdisciplinary CPS Team Experience from a Level I Trauma Center</b>
	<p><b>Charles Vits</b> IMMI <i>Moderators: Susan Laurence, Terriann Shell</i></p> <p>A video illustration of how manufacturers design and test to achieve compliance with FMVSS 213 and 225.</p> 	<p><b>Dana Walraven</b> <i>Safe Kids Tarrant County</i> <i>Moderator: Sharon Evans</i></p> <p>Increase outreach capacity without increasing staff. A look at how to best utilize funds and see an increase in commitment and CPST participation.</p>	<p><b>Katie Mueller</b> <i>Children's Hospital at OU Medical Center</i> <i>Moderator: Dana Hutchinson</i></p> <p>An example of how a Level I Pediatric Trauma Center built a successful CPS program by identifying greatest needs, rallying stakeholders, building creative training solutions and outcome measurement tools.</p>
Session 5	<b>Safety for Sale: The Safety Store Approach to Promoting CPS</b>	<b>Engaging Underserved Communities in Outreach Efforts</b>	<b>The CPS Technician Tool Kit</b>
	<p><b>Jim Savage</b> <i>American Family Children's Hospital, WI</i> <i>Moderator: Nicole Vesely</i></p> <p>An overview of a hospital-based safety store and its focus on child passenger safety through parent education and the sale of child safety restraints. Learn how incorporating the business model of product, place, price and promotion can lead your car seat program to prevention, profit and prominence.</p>	<p><b>Dr. A. Dexter Samuels</b> <i>Tennessee State University</i> <i>Moderator: Noemi Duenas</i></p> <p>The most successful community injury prevention programs use multiple strategies of education, enforcement and environmental modifications to address the needs of the population. This session will highlight the best practices of engaging underserved communities in CPS initiatives from a regulatory and community perspective.</p>	<p><b>Jen Ellis and MacKenzie Aitken</b> <i>St. Luke's Children's Hospital</i> <i>Moderators: Sue Emory, Terry Smith</i></p> <p>It's back, with updates! Using the Learn-Practice-Explain concept, this workshop will interactively address the challenges CPS technicians face in and out of the vehicle, and how best to solve these challenges.</p> 

## Session 6

### Child Restraints and Community Outreach Through Capacity Building

#### Reginald Williams

*Maricopa Co. Dept. of Public Health  
Moderators: Sue Littnan*

The train-the-trainer model to build the capacity of your local agencies and community organizations to deliver car seat safety

### The Power of Partnerships at the Local and National Level

#### Julie Vallese

*Dorel Juvenile Group  
Moderator: Vera Fullaway*

Consumer education is a necessary component to advancing child safety. Build partnerships for a greater opportunity to reach more of your targeted audiences and avoid conflicting messages

### Belts, Bodies and Boosters

#### Amber Kroeker

*C.S. Mott Children's Hospital  
Moderators: Allana Pinkerton,  
Susanne Ogaitis-Jones*

Results of a recent study showing parents lack understanding of what proper belt fit looks like on their child. Learn why height and not age might be a better indicator of when to transition children to the adult seat belt.
