Thank You!

Welcome!

Thank you for your ongoing commitment to Child Passenger Safety. We are honored to have each and every one of you with us and we look forward to hearing from you throughout the conference with suggestions on how we can improve the KIDZ IN MOTION National Child Passenger Safety Conference. The planning committee works hard to create a high-quality conference that meets the educational needs of our field and industry. We hope we have provided you with ample opportunity for continuing education and networking, and have fostered your abilities to enhance your child passenger safety efforts when you return home.

Feel free to share your thoughts and suggestions with any of the Planning Committee members. Please invite your colleagues to join us next year in Albuquerque August 26-28, 2014. Thank you again for attending, and enjoy the conference.

Sincerely,
The Conference Planning Committee

Continuing Education Units

Documentation and verification of attendance at Child Passenger Safety Technician CEU sessions is your responsibility. You will find a CEU Proof of Attendance sheet on the back cover of this program.

To receive credit for a CPS CEU session, please arrive at the session within 5 minutes of the session start and remain in the room until the end of the session. At the end of each session, have your attendance sheet stamped as you exit.

Keep your Proof of Attendance sheet in a safe place!

Workshop Session Details

Session 1 Workshops

Tuesday 2:00 - 2:45 pm

Wolf

LATCH Update: Using the 2013 LATCH Manual

Denise Donaldson, Safe Ride News Publications denise@saferidenews.com

In this session participants will learn how to navigate through the latest LATCH manual and make best use of it when assisting families.

1 CEU

Puma

Occupant Protection for Children - Best Practice

Norraine Wingfield, Kansas Traffic Safety Resource Center nwingfield@dccca.org

Learn about the Best Practice Manual for Occupant Protection for Children developed by GHSA and State Farm.

Hawk

We Have Child Passenger Safety Technicians, Now What?

Sharon Evans, Cook Children's Medical Center sharon.evans@cookchildrens.org

We often think that if we had more techs we could accomplish anything. But more responsibility comes along with having a larger pool of CPS technicians. This workshop will address CPST work guidelines, instructor responsibilities, and maintaining technician competencies. Learn how to work with your risk management and legal departments to develop a policy, guidelines, standards and processes to allow technicians to function independently.

Eagle

Dispelling Myths and Conveying Best Practice to Caregivers

Julie Prom, Chicco chiccousa@gmail.com

Barbara Birkenshaw, Volkswagen barbara.birkenshaw@vw.com

Learn the American Academy of Pediatrics (AAP) recommendations for safe transport of children and review appropriate stages for child restraints, instructions and labeling. This workshop will include a discussion of common myths that can confuse caregivers.

1 CEU

Session 2 Workshops

Wednesday 10:45 - 11:30 am

Wolf

New Regulations for LATCH Loads

Ryan Hawker, Dorel Juvenile Group rhawker@djgusa.com

New LATCH regulations have caused confusion for consumers and could potentially lead to misuse or non-use of LATCH. During this session consequences of new regulations will be discussed, as well as the need for updating vehicle seat LATCH load limitations to adapt to the realities of today's children.

1 CEU

Puma

Wheelchairs on the GO!

Sue Johnson, Columbia Medical sjohnson@columbiamedical.com

This basic introduction covers the latest best-practice approaches to wheelchair safety in vehicles including vans and school buses. Recent updates to voluntary standards for crashworthy wheelchairs will be addressed.

1 CEU

Hawk

Car Seat Education: What Works Best?

Angelica Baker, Phoenix Children's Hospital ambaker@phoenixchildrens.com

Learn from Phoenix Children's Injury Prevention Center and Pediatric Trauma Center about a study comparing two educational teaching methods of instructing parents how to correctly install car seats for children from birth to age 2. Outcome measures will be discussed, including a parent's ability to install a car seat properly, parental knowledge about car seats and confidence level of parents in ability to correctly install a car seat.

Eagle

No More Lower Anchors, Locking Clips or Switching Retractors!

Sarah Tilton, Britax Child Safety, Inc. sarah.tilton@britax.com

Child restraints can be installed using either LATCH or vehicle seat belt. As child passenger safety technicians we know that LATCH is not the answer to many installations. Learn about a new innovation by Britax called ClickTight designed to simplify car seat installation.

1 CEU

Workshop Session Details

Session 3 Workshops Wednesday 2:15 - 3:00 pm

Wolf

Car Seat Development - Why Can't You Just Do this?

Dave Sander, Evenflo Company, Inc. dave.sander@evenflo.com

This presentation will cover the basics of child restraint development from initial research to development and manufacturing, and help attendees grasp the complexity associated with this processes. Specific technologies and methodologies used with the development of today's child restraints will be discussed.

Puma

Factors that Contribute to a Successful Child Passenger Safety Initiative in an African American Community

Kimberly Price, Cincinnati Children's Hospital kimberly.price@cchmc.org

Learn about the Youth Injury Prevention (YIP) program, a faith-based approach using the Social Cognitive Theory and the Health Belief Model to preventing injuries in African-American communities with the objective of increasing the use of motor vehicle restraints.

Hawk

A Comprehensive Child Passenger Safety Program

Janet Werst, University of Colorado Health jw12@pvhs.org

Learn how Safe Kids Larimer County (CO) built a well-rounded, comprehensive CPS program working with hospitals, community agencies, and grant funding.

Eagle

LATCH Update: Scenarios from the 2013 LATCH Manual

Denise Donaldson, Safe Ride News Publications denise@saferidenews.com

Part 2 of the Safe Ride News LATCH manual presentation earlier in this conference. In this session, take a look at how your LATCH manual can assist with several typical car seat checkup scenarios.

Workshop Session Details

Session 4 Workshops Wednesday 3:30 - 4:15 pm	Wolf	<p>Not Just Little Adults? What a Pediatrician Thinks Every Child Passenger Safety Advocate Needs to Know About Kids Benjamin Hoffman, MD, OR Health and Science University hoffmanb@ohsu.edu</p> <p>Children are much more than little adults. Their anatomy, physiology and development differ significantly. From premature infant through adolescence, every stage brings challenges and issues that affect our efforts to protect them. Better understanding these differences can help you improve both CPS policy and practice. The presenter is a practicing pediatrician and CPS technician instructor who will provide insight into both of these worlds. Participants will work in both large and small groups to discover how improved understanding can make us all better advocates.</p>	 1 CEU
	Puma	<p>Safe Transport of Pediatric Patients in Ambulances: Preaching the Gospel Susan Yates, Children's Hospital Colorado susan.yates@childrenscolorado.org Jason Kotas, Children's Hospital Colorado jason.kotas@childrenscolorado.org</p> <p>Learn how Children's Hospital Colorado partnered with the state's CPS training program to deliver and personalize the NHTSA curriculum "Improving Occupant Protection for Non-Critical Pediatric Patients in Ambulances." The workshop presenters will share key factors in their delivery of the curriculum to EMS providers, including use of real-world patient case studies and local data, that have been instrumental in persuading EMS agencies to "sit up and take note."</p>	
	Hawk	<p>Latest Research on Car Seats Teriann Shell, Big Lake, AK manykids_7@yahoo.com</p> <p>Recent research studies relating to child passenger safety will be presented, including pediatricians' knowledge regarding CPS, car seat dermatitis, drivers' reasons for choosing forward-facing car seats, temperatures within car seats in parking lots, and more.</p>	 1 CEU
	Eagle	<p>Full Body Side Impact Protection Bill Forbes, Dorel Juvenile Group bforbes@djgusa.com</p> <p>This presentation will review current technologies and standards development, along with advancements in energy absorption and increasing child safety restraint protection zones with an emphasis on full body side impact, new test standards and G-cell technology.</p>	 1 CEU
Hot Topic Wednesday 4:30 - 5:00 pm	Eagle	<p>Hot Topic: Report from the Revised CPST Curriculum Pilot Class Emilie Crown, Montgomery Co. Fire Rescue emilie.crown@montgomerycountymd.gov Amy Heinzen, National Safety Council amy.heinzen@nsc.org Mike James, KIDZ IN MOTION bwg@hiwaay.net</p> <p>After a considerable amount of effort by the CPS Board and advocates from around the country, a revision of the Standardized Child Passenger Safety Technician Curriculum is almost ready. This session will present the experiences and lessons learned during a recent pilot class of the updated curriculum.</p>

Session 5 Workshops

Thursday 9:00 - 9:45 am

Wolf

Side Impact Testing Innovation

Allana Pinkerton, Diono allana.pinkerton@diono.com

Many car seat manufacturers offer side impact protection, yet there are no official standards for this type of safety feature. Participants will learn about side impact protection, latest research and future plans for implementing side impact testing standards.

1 CEU

Puma

Hot Topics Roundtable

Emilie Crown, Montgomery Co. Fire Rescue emilie.crown@montgomerycountymd.gov

Denise Donaldson, Safe Ride News Publications denise@saferidenews.com

Mike James, KIDZ IN MOTION bwg@hiwaay.net

Stephanie Tombrello, SafetyBeltSafe U.S.A. stombrello@carseat.org

A group discussion of child passenger safety issues facing advocates today.

.5 CEU

Hawk

CASI: An Elementary School Booster Seat Program

Amanda English, Texas Health Resources amandaenglish@texashealth.org

This workshop will present a Pre-kindergarten to second grade program implemented in nine elementary schools to reduce the number of children riding in seatbelts prematurely, as well as strengthen caregiver knowledge about booster seat use, current best practice and state law.

Eagle

Caring for Children with Special Needs: Case Studies and Practical Applications

Kellie O'Riordan, Nationwide Children's Hospital carseatinstructor@hotmail.com

Building on a presentation from KIDZ IN MOTION 2012, this workshop will continue the discussion of building special needs CPS dream team, and look at basic as well as complex health care case studies that warrant additional thought for safe vehicle transport.

1 CEU

Workshop Session Details

Session 6 Workshops Thursday 10:00 - 10:45 am

Wolf

Evaluation of Hospital-Based Child Passenger Safety in a Level 1 Trauma Center

Phyllis Larimore, Children's Mercy Hospital plarimore@cmh.edu

Learn how an electronic medical record (EMR) order and entry process for CPS services helps increase documentation, cost/benefit analysis, community benefit and tax-exempt status of a hospital-based CPS program/organization.

Puma

Safe or Not? The Need for Booster Seat Use with Older, Undersized Children

David Amirault, Dorel Juvenile Group damirault@djgusa.com

The presenter of this workshop will discuss misinformation surrounding booster seat usage and will clarify requirements of booster seat use regardless of age, weight or state law requirements.

1 CEU

Hawk

Tool Kit for Child Passenger Safety

Jen Ellis, St. Luke Children's Hospital carseatmomjen@gmail.com

Learn about real-world, tested tools for improving your ability to communicate with caregivers and children, as well as time-saving tips and tricks for use in the field. This presentation is similar to those at previous KIDZ IN MOTION conferences, but provides new material gleaned from field experience during the past year.

1 CEU

Eagle

Child Safety Restraint Anchorage Options in School Buses

Charles Vits, SafeGuard/IMMI cvits@imminet.com

Denise Donaldson, Safe Ride News Publications denise@saferidenews.com

Did you know that thousands of infants, preschoolers and children with special transportation needs ride on school buses every week? This workshop will provide CPS technicians with a basic overview of how various child safety restraint options are installed on school buses for those riders not adequately protected by school bus compartmentalization.

1 CEU
