

2016 National Child Passenger Safety Conference

August 10 - 13  
Orlando, FL

**Kidz in Motion**

## Peace • Love • Car Seats • Boosters • Seat Belts

Thank you for your commitment to Child Passenger Safety! We are honored to have each and every one of you with us. The Planning Committee works hard to create a high-quality conference that meets the educational needs of our field and industry. We hope we have provided you with ample opportunity for continuing education and networking and fostered your abilities to enhance your child passenger safety efforts when you return home.

Please share your thoughts and suggestions for improving the KIDZ IN MOTION National Child Passenger Safety Conference with any of the Planning Committee Members. We hope to see you next year in Denver Aug 31- Sep 2, 2017.

Thank you for joining us, and enjoy the conference!  
Sincerely, The Conference Planning Committee

- Volkswagen Group of America

## Continuing Education Units

Documentation and verification of attendance at Child Passenger Safety (CPS) Technician CEU sessions is your responsibility. You will find a CEU Proof of Attendance sheet on the back cover of this program. To receive credit for a CPS CEU session, please arrive at the session within 5 minutes of the session start and remain in the room until the end of the session. At the end of each session, obtain a sticker for your CEU page as you exit. Keep your Proof of Attendance sheet in a safe place!

= Safe Kids approved  
CEU Session

## Join Us: MACPS CPS Olympics!

**Wednesday, 4:30 pm**  
**Osceola Co. Conference Center (KIDZ IN MOTION Registration area)**

# Exhibitors

Please take time to thank this year's exhibitors for enriching your learning experience at the **KIDZ IN MOTION Conference**.

# Workshop Session Details

<b>Session 1 Workshops</b> Thursday 2:00 - 2:45 pm	Kissimmee	<b>Meet the Crash Test Dummies</b> <b>Sarah Tilton</b> , Britax Child Safety, Inc sarah.tilton@britax.com Sometimes it is difficult to understand why a car seat manufacturer provides a certain directive for use or fit for a child. How can that car seat hold a 5-pound baby when the harness is so tall? How can a car seat be rated starting at birth, or why doesn't it start at birth? These are some of the often-asked questions Sarah will address.
	St. Cloud	<b>Car Seat Compass 1.0: The Force Awakens</b> <b>Amy Teddy</b> , University of Michigan ateddy@med.umich.edu Are you eager to bring technology to car seat checks? Learn some key findings from a recent research partnership between University of MI students, child passenger safety researchers and technicians with the goal of creating an app to make CPSTs more efficient and effective.
	Harmony	<b>Safety in Simplicity: Designing with the Consumer in Mind</b> <b>Amber Seger and Michelle Williams</b> , Dorel Juvenile aseger@dddllc.com mwilliams@digusa.com Amber and Michelle will discuss how Dorel Juvenile is developing product labels and user manuals using communication technology combined with research on how the human brain processes information to provide a better user experience.
	Celebration A	<b>The Issue of Drowsy Driving Among Parents of Young Children</b> <b>Katie Womack</b> , Texas A&M Transportation Institute kwomack@tamu.edu Recent studies show parents of newborns to be at higher risk for driving while drowsy. Katie will present research on this topic and how the child passenger safety technician community can raise awareness and educate parents.
<b>Session 2 Workshops</b> Friday 10:30 - 11:15 am	Kissimmee	<b>A Closer Look at Newborn Child Restraint Fit</b> <b>Denise Donaldson</b> , Safe Ride News Publications denise@saferidenews.com An impressive array of car seats are available for today's newborns, and many can be adjusted and converted for use by much larger children. While caregivers appreciate this versatility, it also means that ensuring proper use for the smallest occupants requires attention to many details. During this session Denise will review these features, with emphasis on manufacturer's instructions and common mistakes to avoid.
	St. Cloud	<b>Establishing Relationships to Address Special Needs CPS</b> <b>Mina Farag</b> , Children's Hospital Los Angeles mfarag@chla.usc.edu Mina will share how to form a collaboration with regional and family resource centers and families of children with special healthcare needs in your community. He will also present the intricacies of planning special needs check events and fitting stations.
	Harmony	<b>Taking Child Passenger Safety Beyond the Border</b> <b>Wanda Vazquez</b> , Ricon Family Services wvazquez@riconfamilyservices.org Traffic crashes are the number one cause of death in Latin America. Wanda will share how teaching child passenger safety has lead the way to changing laws in Latin American countries, and how technicians can assist in saving lives beyond their communities and the U.S. border.
	Celebration A	<b>Update on Lap-Shoulder Belt Protection in School Buses</b> <b>Charles Vits</b> , SafeGuard/IMMI cvits@imminet.com Charlie will discuss the limits of current school bus compartmentalization and why lap and shoulder belts on buses improves protection. He will also explain how NHTSA has updated its position on these safety devices and the impact it will have on school transportation.

## Workshop Session Details

<b>Session 3 Workshops</b> Friday 1:30 - 2:15 pm	Kissimmee	<b>Harness vs. Booster: When to Make the Switch</b> <b>Sarah Haverstick</b> , Goodbaby International sarah.haverstick@evenflo.com Are you constantly asked when to transition a child from a car seat to a booster seat? Have you had families forced to choose between placing a child in a harnessed seat or a booster in the front seat? Sarah's presentation will give best practice recommendations, crash dynamics and curbside messages to share with caregivers.
	St. Cloud	<b>Analysis of Injury Prevention Program Car Seat Inspections</b> <b>Santiago Chambers</b> , Children's Hospital Los Angeles schambers@chla.usc.edu Santiago will share different ways families can receive car seat inspections through his hospital's injury prevention program, and how check event inspections differ from individually-scheduled inspections. He'll also present their program's varying data collection methods for each type of event, as well as common misuse information they have collected.
	Harmony	<b>Meet the World's First Self-Installing Car Seat</b> <b>Mara McFadden</b> , 4moms mmcfadden@4moms.com Become acquainted with the 4moms self-installing car seat with automatic leveling and tensioning and a continuous monitoring system to ensure correct installation. Mara will also present how this new car seat can be integrated with a mobile app to provide a customized installation experience.
	Celebration A	<b>Occupant Protection Awareness for Patrol Officers</b> <b>Lance Mitchell</b> , Knox County, ME Sheriff's Office lmitchell@knoxcountymaine.gov Lance will present an overview of a course created to train law enforcement officers to identify child safety restraint non-use and gross misuse during traffic stop, and how officers can enforce their respective state's laws to reduce these violations.

## Workshop Session Details

<b>Session 4 Workshops</b> Saturday 9:00 - 9:45 am	Kissimmee	<b>Transforming Your Inspection Program with a Digital Checklist</b> <b>Randy Chhabra</b> , Austin/Travis County, TX EMS randy.chhabra@austintexas.gov Having a platform that allows you to reach, analyze and report back findings and results is imperative for any business and having a digital CPS checklist will allow you to do just that! Randy will tell you how to incorporate a digital platform for CPS inspection data capture that can provide simple and immediate reporting and greater funding opportunities.
	St. Cloud	<b>EMS CPS Practice: Transporting Non-Critical Pediatric Patients</b> <b>Phyllis Larimore</b> , Children's Mercy Hospital plarimore@cmh.edu Phyllis will present the results of a 30-day study by her team using a REDCap electronic observation tool to track her hospital's EMS transports by agency, type of restraint used, time and duration of trip as well as other data points.
	Harmony	<b>LATCH "Need to Know" 2016</b> <b>Denise Donaldson</b> , Safe Ride News Publications denise@saferidenews.com Learn about the current status of LATCH pertaining to NHTSA regulation and current practice. Denise will present more common and complex LATCH topics including weight limits and tether usage. You can also share your thoughts on improvements for the 2017 LATCH manual.
	Celebration A	<b>10 Years of Trends in Motor Vehicle Collision Injuries Among Children</b> <b>Ping Ma</b> , Children's Medical Center at Dallas ping.ma@childrens.com Ping will present motor vehicle crash injury trends from data gathered on patients at her medical center from 2005 - 2014. She'll share summaries of injury severity scores and demographics including age, gender, race, socioeconomic status and length of hospital stay.
	Kissimmee	<b>Developing Off-Site Car Seat Classes: The Good, Bad and Ugly</b> <b>Chantel Ponder</b> , Children's Hospital Los Angeles cponder@chla.usc.edu Chantel will engage you in how to effectively create partnerships with organizations such as Head Start, schools, community centers and churches to provide a comprehensive and sustainable car seat distribution program. She will also share the challenges and barriers she has encountered so you can avoid them.
<b>Session 5 Workshops</b> Saturday 10:00 - 10:45 am	St. Cloud	<b>Making Car Seats Safer</b> <b>Paul Gaudreau</b> , Kolcraft pgaudreau@kolcraft.com Learn how car seats are designed for safety, and how advanced safety features such as load legs, rigid lower anchors and side-impact features affect the safety of a child during a crash.
	Harmony	<b>It Takes a Village to Keeps Kids Safe in Cars</b> <b>Heidi Hefflin</b> , SafetyBeltSafe, U.S.A. carseatRN@gmail.com Heidi will share a sample agenda for a one-day educator workshop complete with a checkup event that introduces community health and safety leaders to child passenger safety. She'll also outline class logistics including location, equipment and staffing. Come and learn how her organization has educated more than 7,000 participants.
	Celebration A	<b>On the Go with Children and Car Seats</b> <b>Sarah Tilton</b> , Britax Child Safety, Inc. sarah.tilton@britax.com Sarah will review modes of transportation including planes, trains, taxis and RVs that can cause challenges and require thought and research on the caregiver's part. She'll also reinforce your important technician role as a resource on best practice vs. legal transport, and clarify transportation myths.
	Kissimmee	<b>Developing Off-Site Car Seat Classes: The Good, Bad and Ugly</b> <b>Chantel Ponder</b> , Children's Hospital Los Angeles cponder@chla.usc.edu Chantel will engage you in how to effectively create partnerships with organizations such as Head Start, schools, community centers and churches to provide a comprehensive and sustainable car seat distribution program. She will also share the challenges and barriers she has encountered so you can avoid them.

Manufacturer's Panel 3 1.5 CEUs		Making Car Seats Safer 1 CEU	
A Closer Look at Newborn CR Fit 1 CEU		On the Go with Children/Car Seats 1 CEU	

For CPS technicians chosen for an audit, Safe Kids Worldwide requires submission of this form as proof of CEU attendance. It is your responsibility to retain this form for possible audit. KIDZ IN MOTION is not able to provide you with a replacement form. CEU documentation is to be kept during the certification cycle and for at least three months after recertification is completed.

This certificate verifies this person attended the 2016 KIDZ IN MOTION National CPS Conference.
