

15th Annual National Child Passenger Safety Conference

Aug 21 - 24, 2019 • Orlando, FL

Thank you for your commitment to Child Passenger Safety!

We are honored to have each and every one of you joining us for the 2019 KIDZ IN MOTION National Child Passenger Safety Conference. The Planning Committee works hard to create a quality conference that meets the educational needs of our field and industry. We hope to foster your ability to enhance your child passenger safety work when you return home. Please share your thoughts about improving the conference with any of the Planning Committee members.

We hope to see you again next year in Orlando Aug 27-29, 2020!
Sincerely, the Planning Committee

Advanced Safety Features in a Car Seat

Paul Gadreau, UPPAbaby paul@uppababy.com

Join Paul as he discusses how Advanced Safety features are becoming more and more common in car seats and what effect they have on increasing child safety.

Harmony

Creating and Managing a Car Seat Program Within a Children's Hospital

Stephanie Lyons, Cincinnati Children's Hospital Medical Ctr. stephanie.lyons@cchmc.org

The Cincinnati Children's inpatient team will explain different sectors of their hospital car seat program for patients and families, and the partnerships with other hospital departments that make the program a success. The team will also discuss the technological tools utilized to report program impact.

St. Cloud

Changing State Law to Protect Kids Beyond Age 8

Stephanie Tombrello, SafetyBeltSafe, USA stombrello@carseat.org

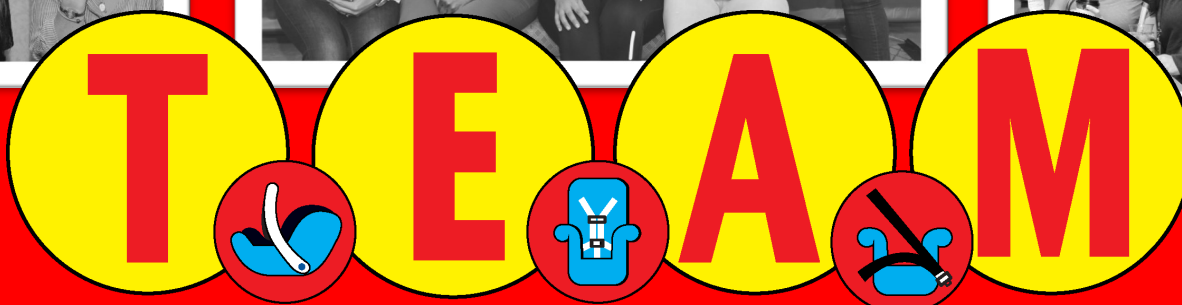

How do technicians enlist the concern of legislators and generate the support of professionals and the public to upgrade laws across the country? Stephanie will present a case study for starting on this road to safer kids.

Kissimmee

Pediatric Vehicular Heatstroke by the Numbers

Jan Null, San Jose State University jnull@ggweather.com

Pediatric Vehicular Heatstroke (PVH) continues to be the number one cause of non-crash vehicular child deaths. Jan will present a paper looking at a wide range of metrics to assist the child safety community in developing prevention strategies.

Workshop Session Details

Session 2 Workshops Friday, 10:30 - 11:15 am

Osceola E

NHTSA's Impact on Child Passenger Safety

Laura Dunn, National Highway Traffic Safety Administration laura.dunn@dot.gov

Join Laura for a discussion about NHTSA's newest child passenger safety projects in the Office of Occupant Protection and the Office of Behavioral Safety Research. She'll also provide some updates from the Offices of Defects Investigation, Vehicle Safety Research, and Rulemaking.

Harmony

Impact of a Unit-Based NICU Child Passenger Safety Program

Tammy Hoff, Cook Children's Medical Ctr. tammy.hoff@cookchildrens.org

It goes without saying that 100% of patients discharged from a hospital neonatal intensive care unit (NICU) should be transported in some form of child passenger safety seat. Tammy will outline the development of a unit-based child passenger safety program and explain how it has created consistency and accuracy when preparing NICU families for discharge home.

St. Cloud

Cops Saving Kids - A Texas Initiative Rooted in Passion, CPS Matters

Michael Munson, Texas Municipal Police Association michael.munson@tmpa.org

Every day officers work roadways to keep travelers safe, and children make up a part of these travelers. Educating officers about CPS makes perfect sense! Giving officers the knowledge to address child passenger safety and providing them with the tools to remove the single greatest threat posed to our children is a must. Michael will detail how Texas put the right pieces together in developing a resource to take the fight to the front lines of child passenger safety.

Kissimmee

Are We Transporting Pediatric Patients the Safest Way We Can?

Jackie Stackhouse, Morristown Medical Ctr. jackieleach@comcast.net

Jackie's presentation will highlight NHTSA's current recommendations for transporting pediatric patients and she will explain where the National Association of EMS Officials (NASEMSO) is heading in regarding to safe pediatric patient transport, and how you can take this information back to your squads/departments to put together a safe policy for transporting child patients.

CEU

Session 3 Workshops Friday 3:15 - 4:00 pm

Osceola E

Getting From Point A to Point B: A Tether's Journey

CEU

Denise Donaldson, Safe Ride News Publications denise@saferidenews.com

Usually, tethering is a simple matter of taking a hook on a CR (Point A) and attaching it to an anchor in a vehicle (Point B). But, in several vehicles, that route can be complicated by obstacles, like head restraints, cargo covers, and more. Denise will focus on how to properly deal with these and other challenges to successful tethering.

Harmony

Bringing a Comprehensive Pediatric Vehicle Heatstroke Prevention Campaign to Life

Gwynne Friters, Boca Raton Police Dept. gwynnek7@aol.com

Struggles persist with educating families, first responders, and the general public on the importance of understanding the main causes associated with preventing pediatric vehicular heatstroke deaths. Gwynne's presentation objectives will bring participants through understanding the science behind the problem, the main causes of the rise of deaths, and how to promote understanding and inspire change using media, videos, graphics, and PowerPoint training.

St. Cloud

NHTSA Funds What????????? How to Expand Youth Education

Norraine Wingfield, DCCCA/Kansas Traffic Safety Resource Office nwingfield@dcca.org

Norraine will provide a look into the National Highway Traffic Safety Administration's state funding and restrictions as well as allowable costs. She'll also provide ways to adapt and implement youth and occupant protection programming when using federal funds.

Kissimmee

What's a Hospital to Do? Transporting Children with Special Health Care Needs: The Riley Experience

CEU

Dr. Joe O'Neil, Riley Hospital for Children joeoneil@iu.edu

All children should have access to an appropriate, correctly used child restraint. Having access to proper resources for safe transportation is as vital for children with special healthcare needs as it is for their typically-developing peers. Additionally, assessment of transportation needs, procurement of the most appropriate restraint, and training for the proper use of the device and its installation in the vehicle may be incorporated into hospital discharge planning for all children with special healthcare needs. Dr. Joe will review a study describing the Riley Hospital for Children's car seat program's interventions for children with special healthcare needs.

Workshop Session Details

CEU

Session 4 Workshops Friday 4:15 - 5:00 pm

Osceola E

What's New in CChIPS Research?

Schuyler St. Lawrence, Toyota Motor North American schuyler.stlawrence@toyota.com

Schuyler will present Center for Child Injury Prevention Studies (CChIPS) studies and the research they perform. Who's a part of CChIPS and how does it all work? He'll also share important findings from some of their latest research, with a focus on how vehicle and CRS features affect the use rate of top tethers, how modern frontal airbags might interact with child occupants in the front seat, and how CRS-to-vehicle fit can affect performance in far-side crashes.

Harmony

Building a Sustainable Loaner Car Seat Program

Emily Lee, Cincinnati Children's Hospital Medical Center emily.lee@cchmc.org

There's a lot to consider when transporting children with special health care needs, particularly when they are being discharged from the hospital. In this session, Emily and the inpatient car seat team from Cincinnati Children's will provide an explanation of the equipment they utilize for their special needs loaner program, as well as the technological tools that help the program run in an orderly fashion.

St. Cloud

Mentoring Makes Us ALL Stronger Together

Alexis Kagiliery and Debbie Landoskey, Safe Kids Worldwide
akagiliery@safekids.org cpsaudit@safekids.org (Debbie)

Learn the power of working together through effective communication and mentorship. Alexis and Debbie will focus not only on instructors mentoring instructor candidates, but for all technicians mentoring each other to create stronger technicians, tech proxies, and tech assistants. Working together is important in holding each other to a higher standard to help maintain the technical quality and standards set forth by the National CPS Board.

Identifying Misuse and Non-Use on Patrol

Lance Mitchell, Knox County Sheriff's Office mitchlj18@yahoo.com

Lance will teach those who train police how to customize a presentation specific to their state laws that will empower the average patrol officer to spot gross misuse and non-use of child restraints. He'll provide attendees with a presentation that will allow them to teach law enforcement officers the most basic knowledge they will need to begin enforcing child restraint laws in their respective states. Lance will also discuss overcoming obstacles to reaching police and police management about the importance of Child Passenger Safety. This presentation is for ALL advocates of CPS.

Alphabet Soup: A Beginner's Guide to International Child Restraint Standards

CEU

Sarah Haverstick, Goodbaby/International(Cybex and Evenflo) sarah.haverstick@goodbabyint.com

Have you ever wondered what makes a European car seat different from a car seat sold in the US? Sarah will review child restraint regulatory standards from major geographic regions around the world, including the US, Canada, Europe and South America. She'll discuss key differences and similarities in regulations, as well as the way regulations may shape features of child restraints. Participants will also help debunk common car seat myths related to the international child restraint market.

Harmony

Child Passenger Safety and Partnerships: Expanding a Car Seat Loaner Program

Stephanie Silva, Children's Hospital Los Angeles stsilva@chla.usc.edu

Children's Hospital Los Angeles' partnership with a local taxi company allows the Injury Prevention Program's car seat loaner program to go beyond the hospital's walls. CHLA's loaner program began in 2013 and since then has provided car seats to nearly 600 patients to get them home safely after discharge. Stephanie will explain how CHLA partnered with a local taxi company to provide safe transportation for patients.

St. Cloud

Speaking Their Language: CPS Education for Children of All Ages

Tracey Fejt, Banner Health tracey.fejt@bannerhealth.com

Children are not small adults; they go through several different developmental stages impacting how they learn, and what learned information they can maintain changes as they grow. Creating an interactive learning experience will help children maintain what they have learned, making them want to share their knowledge with their parents/caregivers. Tracey will provide some teaching techniques using words that are appropriate to a child's developmental stage, describing how pictures and props can also enhance their learning experience. Tracey says, "Be excited about your lesson and the children in your audience will be too!"

Transporting Children in Emergency Vehicles

CEU

Amy Corbett, Harris County Emergency Corps acorbett@hcec.com

Amy will teach you about new safety standards in emergency vehicles, the devices currently available for transporting children, and alternative transport methods. Let's work together to protect our smallest patients!

Session 6 Workshops Saturday 10:00 - 10:45 am

Osceola E

What's New from the AAP and CPS?

Dr. Joe O'Neil, Riley Hospital for Children joeoneil@iu.edu

CEU

The American Academy of Pediatrics (AAP) is recognized as a leading voice for children's health and welfare. In this session Dr. Joe will discuss the organization's new policy revisions, "School Bus Transportation of Children with Special Health Care Needs," "Transporting Children with Special Health Care Needs" and "Child Passenger Safety" and accompanying technical reports. Learn and discuss how these revised recommendations, including the rear facing policy recommendations, impact your work. This presentation is an opportunity to obtain the latest information on how best to protect children in motor vehicles.

Implementing Safe Travel Needs for Special Situations

Josie Bryan and Jen Ellis, St. Luke Children's Hospital bryanj@slhs.org jennifere@slhs.org

St. Luke's Children's Hospital is Idaho's only children's hospital and has implemented a strong special needs car seat program. Josie and Jen will outline how they work within hospital patient units focusing on orthopedic, trauma, behavioral, and high acuity level of care cases. Learn how they've implemented their program and future plans for their up and coming Pediatric Trauma Center.

St. Cloud

Car Seat Misuse: Roadside Enforcement Program Data

Valerie Froom, Oceanside Community Safety Volunteers vfroom@shaw.ca

CPSTs spend a lot of time wishing they could help those who truly need help, rather than those voluntarily seeking assistance. Valerie will overview how a successful partnership in Canada paired local Royal Canadian Mounted Police resources with skilled volunteers for multiple roadside stops over two years, collecting data from nearly 500 children and child restraints.

Kissimmee

Car Seats 201: Tips, Tricks and Exceptions

Erin Brill, Car Seat Safety Consultants erinbrill@gmail.com

CEU

The CPST course provides the basic framework for understanding child restraints. However, it's simply not enough time to cover all of the tips, tricks, and exceptions we encounter in the real world. Erin, a seasoned technician, will cover techniques for maximizing efficiency during installation as well as exceptions to the typical rules and a review of resources for locating this information.

Child Passenger Safety Technician Code of Conduct

The National Child Passenger Board has established the following code of conduct for Child Passenger Safety Technicians (hereafter Technicians) to guide their efforts to support the mission of protecting children in and around vehicles.

Technicians must adhere to the following:

- National Child Passenger Safety Technician Certification Training curriculum
- National Child Passenger Safety Technician certification program policies and procedures
- Car seat and vehicle manufacturers' instructions

Technicians must provide technically correct education in a respectful and professional manner to caregivers, whether in person or online. While educating and supporting families in their pursuit of safety, Technicians must:

- Be active listeners.
- Trust that caregivers want to do the best for children.
- Engage and empower caregivers.
- Respect decisions, keeping in mind the concept of good, better, best.

Technicians must educate caregivers that the best seat is one that:

- Fits the child's weight, height, age, and developmental levels.
- Fits the vehicle.
- The caregiver will use correctly per manufacturers' instructions each time.

Technicians may provide information to help caregivers select a seat, making certain that recommendations are based on the specific needs of the family and features of the seats that support those needs. Technicians must not make recommendations based solely on brand and/or personal preference.

Technicians must not discriminate based on race, color, religion, sex (including pregnancy, sexual orientation, or gender identity), national origin, disability, age, or socioeconomic status.

Adhering to the Code of Conduct maintains the quality of services provided by Technicians and applies to all verbal, non-verbal and written communication while interacting with colleagues and caregivers.

For more information and resources, visit cpsboard.org.

Certificate of Attendance

National Child Passenger Safety Conference, Orlando FL
Aug 21 - 24, 2019

Conference CEU Sessions

Manufacturers Panel 1 1.5 CEUs	Advanced Safety Features in a Car Seat 1 CEU	Manufacturers Panel 2 1.5 CEUs
Manufacturers Panel 3 1.5 CEUs	Are We Transporting Pediatric Patients the Safest Way We Can? 1 CEU	Getting from Point A to Point B: A Tether's Journey 1 CEU
What's A Hospital to Do? Transporting Children with Special Healthcare Needs 1 CEU	What's New in CChIPS Research? 1 CEU	Alphabet Soup: A Beginner's Guide to Intl. Child Restraint Standards 1 CEU
Transporting Children in Emergency Vehicles 1 CEU	What's New from the AAP and CPS? 1 CEU	Car Seats 201: Tips, Tricks and Exceptions 1 CEU

For CPS Technicians chosen for an audit, Safe Kids Worldwide requires submission of this form as proof of CEU attendance. It is your responsibility to retain this form. KIDZ IN MOTION is not able to provide you with a replacement form. CEU documentation is to be kept during the certification cycle and for at least three months after recertification is completed. This certificate is not valid without an official KIDZ IN MOTION sticker placed under each session attended.
This certificate verifies this person attended the 2019 KIDZ IN MOTION National Child Passenger Safety Conference.
